Serial Number For Each Tag	Reason For Return - What Are We Doing To Each Tag

Comments:

International returns MUST specify clearly on the shipping paperwork that the contents are **"Made in the U.S.A. Returning to manufacturer for evaluation/repair."** This information will minimize any possible customs issues or delays. The tariff (harmonized) code number to use for tags being returned is 9801.10.0000. Contact Wildlife Computers for the commercial value to list on the return shipment.

If you know any specific customs requirements for returning the repaired tags to you, please be sure to notify us in advance. This may include specific verbiage required on a package or whether we should use a specific courier or broker for the return shipment. We recommend carriers such as UPS, FedEx, or DHL, and suggest forwarding the tracking number to us by email. The tags should be carefully packaged, insured, and shipped to:

**Attn: Repairs  
Wildlife Computers
