

ASSET RECOVERY TAG SUITE

SPECIFICATION

Model	Argos	Temperature	Fastloc®	Life (days) ¹	L x W x H (mm)	Weight (g)
SPOT-258	✓	✓		300	110 x 45 x 20	54
SPOT-363	✓	✓		171	57 x 27 x 21	43
SPOT-386	✓	✓		300	111 x 21 x 20	52

1. The above estimated tag life relies on battery variability, temperature, power settings, features utilized, etc. Life estimates are calculated using manufacturers' specifications and assumes 250 transmissions per day, and where applicable, 24 Fastloc® acquisitions per day.

Asset recovery tags are deployed in syntactic foam floats that carry cameras and/or accelerometer packages. They are optimized for transmissions when the antenna is vertical above the water line. All of the asset recovery tags incorporate a pinger that can be activated to transmit a short pulse for fine-scale locating using a UHF handheld antenna and receiver. Wildlife Computers provides receivers for real-time-tracking along with 3-element directional Yagi antennas.

Model: SPOT-258

Model: SPOT-386

Model: SPOT-363
