

Model	Argos	Temperature	Life (days) ¹	L x W x H (mm)	Weight (g)
SPOT-363	✓	✓	255	57 x 27 x 21	43
SPOT-420	✓	✓	555	111 x 44 x 20	62
SPOT-424	✓	✓	555	111 x 21 x 20	57

1. Lifespan estimates may increase or decrease based on your deployment. Please see your technical sales consultant.

Asset recovery tags are deployed in syntactic foam floats that carry cameras and/or accelerometer packages. They are optimized for transmissions when the antenna is vertical above the water line. All of the asset recovery tags incorporate a pinger that can be activated to transmit a short pulse for fine-scale locating using a UHF handheld antenna and receiver. Wildlife Computers provides receivers for real-time-tracking along with 3-element Yagi directional antennas.
