WILDLIFE COMPUTERS

Model Number	Accessories	Details
AM-M402A-00	Remote Release Controller	Handheld transceiver for transmitting and receiving remote release radio commands.
AZ-RRDCART-001	Refurbishment Kit	Kit includes baseplate with skirt, washers, and urethane covers.
AZ-TORQKIT-000	Torque Wrench and Sockets	Torque wrench and sockets for refurbishing the PRD-RP.

The Wildlife computers PRD-RP (Payload Recovery Device-Remote Pinniped is an Argos transmitter and release device. Designed for Pinnipeds, the PRD-RP is the best way to recover your data with minimal effort and disturbance to the animal. The PRD-RP can be used multiple times when refurbishing with the Wildlife Computers refurbishment kit. The remote release controller allows for radio-triggered release from over 200 meters.
